Old Skool Bus Events is a Sussex based mobile catering company with two original American school bus trucks, "Bella" is our fully fitted commercial kitchen food truck. We can offer a wide range of street food menus and food styles from this truck, and we simply drive it into the venue or field to cook for your event!

"Wolfie" is our second truck, which is being finished inside as a bar lounge for guests to sip their drinks sitting inside a real American bus! We set up a gazebo food stall and bar outside the bus and can offer a range of food menus and bar service.

Festival food trader & crew catering

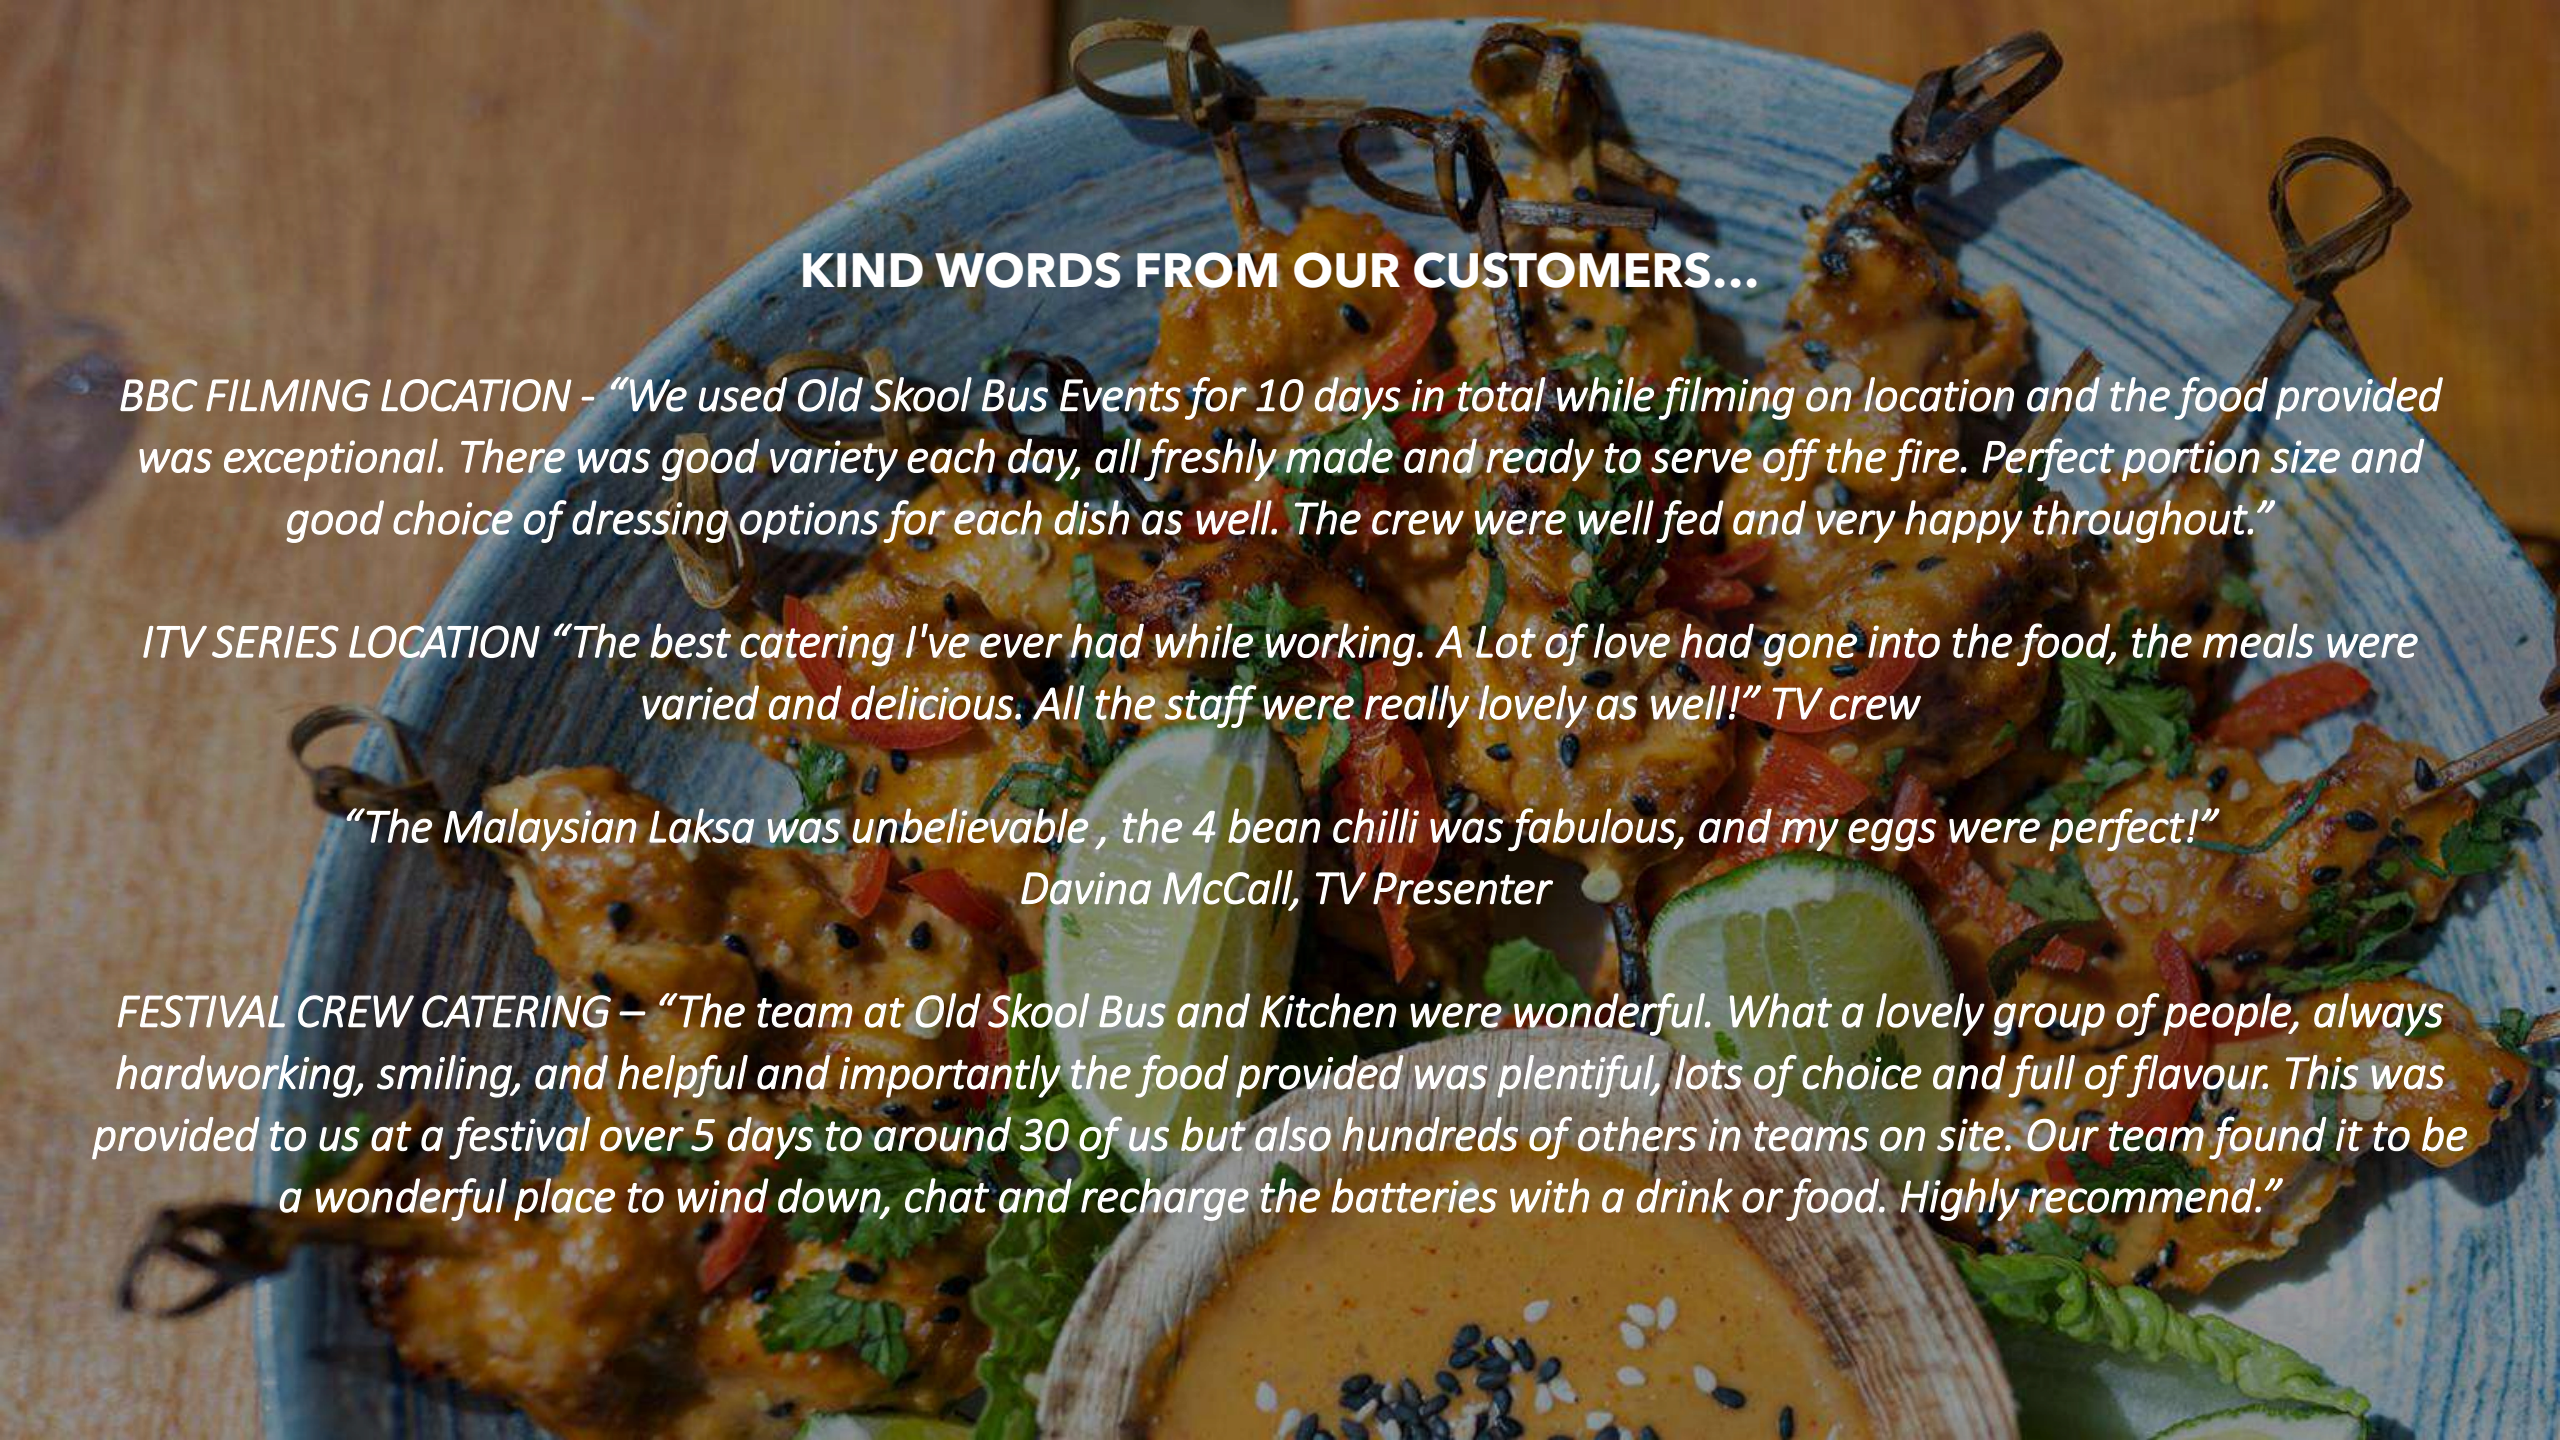

- Old Skool Bus Events have served at several festivals and events as a food trader since 2021, including Shindig, Glastonbury Festival, Into the Wild, The Great Escape, Silverstone F1 and Brighton Marathon

- CREW CATERING menus have also been popular for several large and small events. We can serve 150 crew from our food truck, three meals per day, and much more from a marquee kitchen canteen.

KIND WORDS FROM OUR CUSTOMERS...

BBC FILMING LOCATION - "We used Old Skool Bus Events for 10 days in total while filming on location and the food provided was exceptional. There was good variety each day, all freshly made and ready to serve off the fire. Perfect portion size and good choice of dressing options for each dish as well. The crew were well fed and very happy throughout."

ITV SERIES LOCATION "The best catering I've ever had while working. A Lot of love had gone into the food, the meals were varied and delicious. All the staff were really lovely as well!" TV crew

"The Malaysian Laksa was unbelievable , the 4 bean chilli was fabulous, and my eggs were perfect!"

Davina McCall, TV Presenter

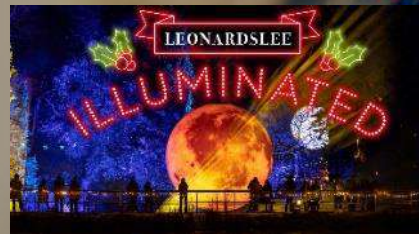

FESTIVAL CREW CATERING – "The team at Old Skool Bus and Kitchen were wonderful. What a lovely group of people, always hardworking, smiling, and helpful and importantly the food provided was plentiful, lots of choice and full of flavour. This was provided to us at a festival over 5 days to around 30 of us but also hundreds of others in teams on site. Our team found it to be a wonderful place to wind down, chat and recharge the batteries with a drink or food. Highly recommend."
